**ADVICE:** "Your ability to build your network as a young lawyer will greatly enhance your ability to build a thriving practice. No amount of automation will replace this skill — it takes time and attention to build a quality relationship."

**TREND TO WATCH:** "Virtual law firms are becoming more common, as more powerful technology has allowed attorneys and paralegals to work from any location. This provides a new paradigm for a law firm as it will provide great flexibility and work/life balance, which is a priority for most bright young professionals."
